SQL, PostgreSQL, Oracle

Design patterns

Agile, Scrum, Waterfall

Figma, Sketch, Zeplin, UI, UX

Canva, Adobe Creative

ABOUT ME

I am a graduate of Mersin University with a degree in Computer Programming and Anadolu University with a degree in Management Information Systems. I am currently a student in the Public Relations and Advertising department at Anadolu University, and I reside in Ankara. Since 2014, I have been actively involved in software development, having worked on numerous freelance projects. I currently have several projects in progress, some of which are already in use. My career goal is to become a highly skilled full-stack developer. In addition to my academic pursuits, I am a member of various student clubs and organizations, and I have actively participated in social volunteer projects in various sectors. I believe that my strong interpersonal skills and social aptitude complement my technical expertise.
